### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claims 10-12 have been rejoined as being directed to a non-elected species, generic claim 1 being held allowable over the prior art of record. Claims 1 and 3-<sup>14</sup>~~12~~ are allowed.

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As an initial matter, applicant is advised that claims 10-12 have been rejoined (non-elected species) as the generic claim herein (claim 1) has been found to be allowable over the prior art of record.

As applicant argues, there is no clear reason to pick and chose the various pieces of the claimed operation of the different references. While it may have been known to perforate the elastic prior to cutting the same, how this makes the cutting operation any easier (the reason for making the modification) is not completely clear as one would be required to make a partial cut in the elastic prior to the final severing of the elastic and thus two severing steps are necessary. While Van Gompel depicts an

elastic having edge regions that extend beyond the substrate to which it is applied, there is no reason to believe that one skilled in the art would have used to techniques proposed to apply the elastic member and additionally applicant's argument that one would not have precut the elastic members (via a perforation or line of weakness) prior to final cutting has been found to be persuasive. Applicant's arguments presented in the reply are persuasive and the prima facie case has been overcome.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
